

December 24, 1949.

Mr. Ellis Englesberg
Dept. of Bacteriology,
University of California,
Berkeley 4, California.

Dear Mr. Englesberg:

I regret to inform you that I cannot assure you of working facilities here during 1950-51 for the post-doctoral fellowship program that you proposed. Our quarters are very restricted at the present time, and I have not been able, during the very brief time permitted, to improvise suitable arrangements. I hope that this will not unduly affect your fellowship plans. Please let me know if you can make any alternative arrangements that will give us time to dig up accommodations for you.

Yours sincerely,

Joshua Lederberg
Assistant Professor of Genetics
